MOERUS WORLDWIDE VALUE FUND

NOTES TO FINANCIAL STATEMENTS

November 30, 2024

1. ORGANIZATION

The Moerus Worldwide Value Fund (the "Fund") is a diversified series of Northern Lights Fund Trust IV (the "Trust"), a trust organized under the laws of the State of Delaware on June 2, 2015, and registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as an open-end management investment company. The Fund's investment objective is long-term capital appreciation. The Fund commenced operations on May 31, 2016.

The Fund currently offers Class N and Institutional Class shares, which are offered at net asset value. Each class represents an interest in the same assets of the Fund and classes are identical except for differences in their distribution charges. All classes of shares have equal voting privileges except that each class has exclusive voting rights with respect to its service and/or distribution plans.

2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies followed by the Fund in preparation of its financial statements. These policies are in conformity with generally accepted accounting principles in the United States of America ("GAAP"). The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses for the year. Actual results could differ from those estimates. The Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board ("FASB") Accounting Standards Codification Topic 946 "*Financial Services – Investment Companies*", including Accounting Standards Update 2013-08. Fund level income and expenses, and realized and unrealized capital gains and losses are allocated to each class of shares based on their relative net assets within the Fund. Class specific expenses are allocated to that share class.

Security Valuation – Securities listed on an exchange are valued at the last reported sale price at the close of the regular trading session of the exchange on the business day the value is being determined, or in the case of securities listed on NASDAQ at the NASDAQ Official Closing Price. In the absence of a sale, such securities shall be valued at the mean between the current bid and ask prices on the day of valuation. Short-term debt obligations having 60 days or less remaining until maturity, at time of purchase, may be valued at amortized cost which approximates fair value. Securities traded on a foreign exchange which has not closed by the valuation time or for which the official closing prices are not available at the time the net asset value per share ("NAV") is determined may use alternative market prices provided by a pricing service.

Valuation of Underlying Funds - The Fund may invest in portfolios of open-end or closed-end investment companies (the "Underlying Funds"). Mutual funds are valued at their respective NAV as reported by such investment companies. Exchange-traded funds ("ETFs") are valued at the last reported sale price or official closing price. Mutual funds value securities in their portfolios for which market quotations are readily available at their market values (generally the last reported sale price) and all other securities and assets at their fair value pursuant to the methods established by the board of directors of the open-end funds. The shares of many closed-end investment companies and ETFs, after their initial public offering, frequently trade at a price per share, which is different than the NAV. The difference represents a market premium or market discount of such shares. There can be no assurances that the market discount or market premium on shares of any closed-end investment company or ETF purchased by the Fund will not change.

MOERUS WORLDWIDE VALUE FUND
NOTES TO FINANCIAL STATEMENTS (Continued)
November 30, 2024

The Fund may hold investments, such as private investments, interests in commodity pools, other non-traded securities or temporarily illiquid securities, for which market quotations are not readily available or are determined to be unreliable. These securities are valued using the “fair value” procedures approved by the Board. The Board has designated the adviser as its valuation designee (the “Valuation Designee”) to execute these procedures. The Board may also enlist third party consultants such a valuation specialist at a public accounting firm, valuation consultant or financial officer of a security issuer on an as-needed basis to assist the Valuation Designee in determining a security-specific fair value. The Board is responsible for reviewing and approving fair value methodologies utilized by the Valuation Designee, approval of which shall be based upon whether the Valuation Designee followed the valuation procedures established by the Board.

Fair Valuation Process – Applicable investments are valued by the Valuation Designee pursuant to valuation procedures established by the Board. For example, fair value determinations are required for the following securities: (i) securities for which market quotations are insufficient or not readily available on a particular business day (including securities for which there is a short and temporary lapse in the provision of a price by the regular pricing source); (ii) securities for which, in the judgment of the Valuation Designee, the prices or values available do not represent the fair value of the instrument; factors which may cause the Valuation Designee to make such a judgment include, but are not limited to, the following: only a bid price or an asked price is available; the spread between bid and asked prices is substantial; the frequency of sales; the thinness of the market; the size of reported trades; and actions of the securities markets, such as the suspension or limitation of trading; (iii) securities determined to be illiquid; and (iv) securities with respect to which an event that affects the value thereof has occurred (a “significant event”) since the closing prices were established on the principal exchange on which they are traded, but prior to the Fund’s calculation of its net asset value. Specifically, interests in commodity pools or managed futures pools are valued on a daily basis by reference to the closing market prices of each futures contract or other asset held by a pool, as adjusted for pool expenses. Restricted or illiquid investments, such as private investments or non-traded securities are valued based upon the current bid for the security from two or more independent dealers or other parties reasonably familiar with the facts and circumstances of the security (who should take into consideration all relevant factors as may be appropriate under the circumstances). If a current bid from such independent dealers or other independent parties is unavailable, the Valuation Designee shall determine the fair value of such security using the following factors: (i) the type of security; (ii) the cost at date of purchase; (iii) the size and nature of the Fund’s holdings; (iv) the discount from market value of unrestricted securities of the same class at the time of purchase and subsequent thereto; (v) information as to any transactions or offers with respect to the security; (vi) the nature and duration of restrictions on disposition of the security and the existence of any registration rights; (vii) how the yield of the security compares to similar securities of companies of similar or equal creditworthiness; (viii) the level of recent trades of similar or comparable securities; (ix) the liquidity characteristics of the security; (x) current market conditions; and (xi) the market value of any securities into which the security is convertible or exchangeable.

The Fund values its investments utilizing various methods to measure their fair value on a recurring basis. GAAP establishes a hierarchy that prioritizes inputs to valuation methods. The three levels of input are:

Level 1 – Unadjusted quoted prices in active markets for identical assets and liabilities that the Fund has the ability to access.

Level 2 – Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument in an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.

Level 3 – Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing the Fund’s own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

MOERUS WORLDWIDE VALUE FUND
NOTES TO FINANCIAL STATEMENTS (Continued)
November 30, 2024

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety, is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The following tables summarize the inputs used as of November 30, 2024 for the Fund's investments measured at fair value:

Assets *	Level 1	Level 2	Level 3	Total
Common Stocks	\$ 83,670,532	\$ -	\$ -	\$ 83,670,532
Money Market Fund	2,293,297	-	-	2,293,297
Total	\$ 85,963,829	\$ -	\$ -	\$ 85,963,829

The Fund did not hold any level 2 or level 3 securities during the year.

*Please refer to the Schedule of Investments for industry classifications.

Foreign Currency: Investment securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts at the date of valuation. Purchases and sales of investment securities and income and expense items denominated in foreign currencies are translated into U.S. dollar amounts on the respective dates of such transactions.

The Fund does not isolate that portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized and unrealized gain or loss from investments.

Reported net realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, and the difference between the amounts of dividends, interest, and foreign withholding taxes recorded on the Fund's books and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in the fair values of assets and liabilities, other than investments in securities at fiscal year end, resulting from changes in exchange rates.

Foreign Currency Risk: Currency investing and trading risks include market risk, credit risk and country risk. Market risk results from adverse changes in exchanges in exchange rates. Credit risk results because a currency-trade counterparty may default. Country risk arises because a government may interfere with transactions in its currency.

Foreign Investment Risk: Foreign investing involves adverse fluctuations in foreign currency values, adverse political, social and economic developments, less liquidity, greater volatility, less developed or less efficient trading markets, political instability and differing auditing and legal standards.

Concentration of Risk: Investing in securities of foreign issuers and currency transactions may involve certain considerations and risks not typically associated with investments in the United States. These risks include revaluation of currencies, adverse fluctuations in foreign currency values and possible adverse political, social and economic developments, including those particular to a specific industry, country or region. These conditions could cause the securities and their markets to be less liquid and prices more volatile than those of comparable U.S. companies and U.S. government securities.

MOERUS WORLDWIDE VALUE FUND
NOTES TO FINANCIAL STATEMENTS (Continued)
November 30, 2024

Market and Geopolitical Risk: The increasing interconnectivity between global economies and financial markets increases the likelihood that events or conditions in one region or financial market may adversely impact issuers in a different country, region or financial market. Securities in the Fund's portfolio may underperform due to inflation (or expectations for inflation), interest rates, global demand for particular products or resources, natural disasters, climate change or climate-related events, pandemics, epidemics, terrorism, regulatory events and governmental or quasi-governmental actions. The occurrence of global events similar to those in recent years may result in market volatility and may have long term effects on both the U.S. and global financial markets.

Security Transactions and Related Income – Security transactions are accounted for on the trade date. Interest income is recognized on an accrual basis. Discounts are accreted and premiums are amortized on securities purchased over the lives of the respective securities using the effective yield method. Dividend income and expense are recorded on the ex-dividend date. Realized gains or losses from sales of securities are determined by comparing the identified cost of the security lot sold with the net sales proceeds. Withholding taxes on foreign dividends and foreign capital gain taxes have been provided for in accordance with the Fund's understanding of the applicable country's tax rules and rates. As of November 30, 2024, the Fund recorded a deferred liability for potential future Indian capital gains taxes of \$182,001. During the year ended November 30, 2024, the Fund paid Indian capital gains taxes in the amount of \$337,882.

Distributions to Shareholders – Dividends from net investment income, if any, are declared and paid annually. Distributable net realized capital gains, if any, are declared and distributed annually. Dividends from net investment income and distributions from net realized gains are determined in accordance with federal income tax regulations, which may differ from GAAP and are recorded on the ex-dividend date. These "book/tax" differences are considered either temporary (e.g., deferred losses, capital loss carryforwards, etc.) or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the composition of net assets based on their federal tax-basis treatment; temporary differences do not require reclassification. Any such reclassifications will have no effect on net assets, results of operations, or net asset values per share of the Fund.

Cash and cash equivalents – Cash and cash equivalents are held with a financial institution and include demand deposits and short-term, liquid investments with an original maturity of three months or less. The assets of the Fund may be placed in deposit accounts at U.S. banks and such deposits generally exceed Federal Deposit Insurance Corporation ("FDIC") insurance limits. The FDIC insures deposit accounts up to \$250,000 for each accountholder. The counterparty is generally a single bank rather than a group of financial institutions; thus there may be a greater counterparty credit risk. The Fund places deposits only with those counterparties which are believed to be creditworthy and there has been no history of loss.

Federal Income Tax – The Fund intends to continue to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute all its taxable income to shareholders. Therefore, no provision for federal income tax is required.

The Fund recognizes the tax benefits of uncertain tax positions only where the position is "more likely than not" to be sustained assuming examination by tax authorities. Management has analyzed the Fund's tax positions and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on returns filed for open tax years November 30, 2020, to November 30, 2023, or expected to be taken in the Fund's November 30, 2024, tax returns. The Fund identified its major tax jurisdictions as U.S. federal, Ohio and foreign jurisdictions where the Fund makes significant investments. The Fund recognizes interest and penalties, if any, related to unrecognized tax benefits as income tax expenses in the Statement of Operations. During the year ended November 30, 2024, the Fund did not incur any interest or penalties. The Fund is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will change materially in the next twelve months.

Expenses – Expenses of the Trust that are directly identifiable to a specific fund are charged to that fund. Expenses, which are not readily identifiable to a specific fund, are allocated in such a manner as deemed equitable, taking into consideration the nature and type of expense and the relative sizes of the funds in the Trust.

MOERUS WORLDWIDE VALUE FUND
NOTES TO FINANCIAL STATEMENTS (Continued)
November 30, 2024

Indemnification – The Trust indemnifies its officers and trustees for certain liabilities that may arise from the performance of their duties to the Trust. Additionally, in the normal course of business, the Fund enters into contracts that contain a variety of representations and warranties and which provide general indemnities. The Fund’s maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred. However, based on experience, the risk of loss due to these warranties and indemnities appears to be remote.

3. INVESTMENT TRANSACTIONS

For the year ended November 30, 2024, cost of purchases and proceeds from sales of portfolio securities, other than short-term investments and U.S. government securities, amounted to \$42,249,559 and \$33,656,334, respectively.

4. INVESTMENT ADVISORY AGREEMENT AND TRANSACTIONS WITH RELATED PARTIES

Moerus Capital Management LLC serves as the Fund’s investment adviser (“Adviser”). Pursuant to an investment advisory agreement with the Trust, on behalf of the Fund, the Adviser, under the oversight of the Board, oversees the daily operations of the Fund, manages the Fund’s portfolio and supervises the performance of administrative and professional services provided by others. As compensation for its services and the related expenses borne by the Adviser, the Fund pays the Adviser an investment advisory fee, computed and accrued daily and paid monthly, at an annual rate of 0.95% of the Fund’s average daily net assets. For the year ended November 30, 2024, the Fund incurred \$732,725 in investment advisory fees.

The Adviser has contractually agreed to reduce its fees and/or absorb expenses of the Fund, until at least March 31, 2025, to ensure that total annual fund operating expenses after fee waiver and/or reimbursement (excluding (i) any front-end or contingent deferred loads; (ii) brokerage fees and commissions; (iii) acquired fund fees and expenses; (iv) fees and expenses associated with investments in other collective investment vehicles or derivative instruments (including for example option and swap fees and expenses); (v) borrowing costs (such as interest and dividend expense on securities sold short); (vi) taxes; and (vii) extraordinary expenses, such as litigation expenses (which may include indemnification of Fund officers and Trustees, contractual indemnification of Fund service providers (other than the Adviser)), will not exceed 1.50% and 1.25% of the Fund's average daily net assets attributable to Class N shares and Institutional Class shares, respectively. During the year ended November 30, 2024, the Adviser waived fees in the amount of \$231,366 pursuant to its contractual agreement.

If the Adviser waives any fees or reimburses any expenses and any operating expenses are subsequently lower than their respective expense limitation, the Adviser shall be entitled to reimbursement by the Fund provided that such reimbursement does not cause the Fund’s operating expenses to exceed the respective expense limitation. The Adviser may seek reimbursement only for expenses waived or paid by it during the three years prior to such reimbursement; provided, however, that such expenses may only be reimbursed to the extent they were waived or paid after the date of the waiver agreement (or any similar agreement).

Expenses subject to recapture pursuant to the aforementioned conditions as of November 30, 2024 will expire on November 30 of the following years:

<u>November 30, 2025</u>	<u>November 30, 2026</u>	<u>November 30, 2027</u>
\$ 153,840	\$ 226,707	\$ 231,366

Foreside Fund Services, LLC is the distributor for the shares of the Fund (the “Distributor”). Shares of the Fund are offered on a continuous basis.

MOERUS WORLDWIDE VALUE FUND
NOTES TO FINANCIAL STATEMENTS (Continued)
November 30, 2024

The Trust, with respect to the Fund, has adopted the Trust’s Master Distribution and Shareholder Servicing Plan (the “Plan”) for Class N shares, pursuant to Rule 12b-1 of the 1940 Act, which allows the Fund to pay the Fund’s Distributor an annual fee for distribution and shareholder servicing expenses of up to 0.25% of the Fund’s average daily net assets attributable to Class N shares. For the year ended November 30, 2024, the Fund incurred \$5,213 in distribution and shareholder servicing fees.

Ultimus Fund Solutions, LLC (“UFS”) – UFS provides administration, fund accounting, and transfer agent services to the Trust. Pursuant to separate servicing agreements with UFS, the Fund pays UFS customary fees for providing administration, fund accounting and transfer agency services to the Fund as shown in the Statement of Operations. Certain officers of the Trust are also officers of UFS and are not paid any fees directly by the Fund for serving in such capacities.

Northern Lights Compliance Services, LLC (“NLCS”) - NLCS, an affiliate of UFS, provides a Chief Compliance Officer to the Trust, as well as related compliance services, pursuant to a consulting agreement between NLCS and the Trust. Under the terms of such agreement, NLCS receives customary fees from the Fund which are included in the compliance officer fees in the Statement of Operations.

Blu Giant, LLC (“Blu Giant”) – Blu Giant, an affiliate of UFS, provides EDGAR conversion and filing services as well as print management services for the Fund on an ad-hoc basis. For the provision of these services, Blu Giant receives customary fees from the Fund which are included in the shareholder reporting expenses in the Statement of Operations.

5. CONTROL OWNERSHIP

The beneficial ownership, either directly or indirectly, of more than 25% of the voting securities of a fund creates presumption of control of the fund under Section 2(a)(9) of the 1940 Act. As of November 30, 2024, Charles Schwab & Co., Inc., on behalf of its clients, held approximately 69.72% of the voting securities of the Fund, and therefore, may be deemed to control the Fund.

6. AGGREGATE UNREALIZED APPRECIATION AND DEPRECIATION - TAX BASIS

At November 30, 2024, the aggregate cost for federal tax purposes, which differs from fair value by net unrealized appreciation (depreciation) of securities, are as follows:

Tax Cost	Gross Unrealized Appreciation	Gross Unrealized Depreciation	Net Unrealized Appreciation
\$ 68,374,530	\$ 23,444,925	\$ (6,037,627)	\$ 17,407,298

7. DISTRIBUTION TO SHAREHOLDERS AND TAX COMPONENTS OF CAPITAL

The tax character of fund distributions paid for the years ended November 30, 2024, and November 30, 2023, was as follows:

	Fiscal Year Ended November 30, 2024	Fiscal Year Ended November 30, 2023
Ordinary Income	\$ 3,106,854	\$ 268,832

As of November 30, 2024, the components of accumulated earnings/(deficit) on a tax basis were as follows:

Undistributed Ordinary Income	Undistributed Long-Term Gains	Post October Loss and Late Year Loss	Capital Loss Carry Forwards	Other Book/Tax Differences	Unrealized Appreciation/ (Depreciation)	Total Accumulated Earnings/(Deficits)
\$ 3,033,010	\$ -	\$ -	\$ -	\$ -	\$ 17,405,165	\$ 20,438,175

MOERUS WORLDWIDE VALUE FUND
NOTES TO FINANCIAL STATEMENTS (Continued)
November 30, 2024

At November 30, 2024, the Fund had capital loss carryforwards utilized as follows:

Short-Term	Long-Term	Total	CLCF Utilized
\$ -	\$ -	\$ -	\$ 3,698,329

The difference between book basis and tax basis unrealized appreciation (depreciation), undistributed net investment income (loss) and accumulated net realized gain (loss) from investments are primarily attributable to the tax deferral of losses on wash sales, and mark-to-market on passive foreign investment companies. The unrealized appreciation (depreciation) in the table above includes unrealized foreign currency losses of \$(2,133).

Permanent book and tax differences, primarily attributable to tax adjustments for realized gain (loss) on use of tax equalization credits, resulted in reclassifications for the Fund for the fiscal year ended November 30, 2024, as follows:

Paid In Capital	Distributable Earnings
\$ 53,752	\$ (53,752)

8. SUBSEQUENT EVENTS

Subsequent events after the date of the Statement of Assets and Liabilities have been evaluated through the date the financial statements were issued. Management has determined that no events or transactions occurred requiring adjustment or disclosure in the financial statements.

9. TAX INFORMATION (UNAUDITED)

The Fund intends to elect to pass through to shareholders the income tax credit for taxes paid to foreign countries. Foreign source income and foreign tax expense per outstanding share as of fiscal year ended November 30, 2024, and November 30, 2023, were as follows:

Fiscal Year Ended November 30, 2024

Foreign Taxes Paid	Foreign Source Income
\$ 0.09	\$ 0.33
\$ 0.09	\$ 0.33

Fiscal Year Ended November 30, 2023

Foreign Taxes Paid	Foreign Source Income
\$ 0.03	\$ 0.73
\$ 0.03	\$ 0.73

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders of Moerus Worldwide Value Fund and
Board of Trustees of Northern Lights Fund Trust IV

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities, including the schedule of investments, of Moerus Worldwide Value Fund (the "Fund"), a series of Northern Lights Fund Trust IV, as of November 30, 2024, the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, the financial highlights for each of the five years in the period then ended, and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund as of November 30, 2024, the results of its operations for the year then ended, the changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Fund's management. Our responsibility is to express an opinion on the Fund's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of November 30, 2024, by correspondence with the custodian and brokers; when replies were not received from brokers, we performed other auditing procedures. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

We have served as the Fund's auditor since 2016.
